

BounceLOL

Privacy Policy

Effective Date: April 18, 2026

1. Introduction

Welcome to BounceLOL. We respect your privacy and are committed to protecting the personal information of our players. This Privacy Policy explains what information we collect, how we use it, and your rights regarding your data. Please read this policy carefully.

This policy applies to all users of BounceLOL, including children under the age of 13. We are committed to complying with the Children's Online Privacy Protection Act (COPPA) and Google Play's Families Policy.

2. Information We Collect

BounceLOL is designed to be a low-data game. Here is exactly what we collect and why:

a) Google Account Information (Leaderboard only)

If you choose to use the leaderboard feature, you must sign in with a Google Account via Google Play Games Services. Through this, we receive:

- Your Google Play Games display name (the name shown on the leaderboard).
- Your leaderboard score(s).
- A unique player ID assigned by Google Play Games.

This information is used solely to display your rank and score on the leaderboard. The leaderboard is optional — you can play the full game without signing in.

b) Advertising Data

BounceLOL uses third-party advertising networks (such as Google AdMob) to display ads. These networks may automatically collect:

- Device identifiers (such as Advertising ID).
- IP address.
- Approximate location (based on IP).
- Interaction data (e.g., whether an ad was viewed or clicked).

This data is collected directly by the ad networks and is subject to their own privacy policies. We do not receive or store this data ourselves.

c) What We Do NOT Collect

We do not collect:

- Your real name, email address, or phone number.
- Precise GPS location.
- Photos, contacts, or microphone/camera data.
- Payment or financial information.
- Any personally identifiable information beyond what Google Play Games provides for the leaderboard.

3. Children's Privacy (COPPA Compliance)

BounceLOL is available to users of all ages, including children under 13. We take children's privacy very seriously:

- We do not knowingly collect personal information directly from children under 13.
- The leaderboard feature (which involves Google Account sign-in) is governed by Google's own age verification and COPPA compliance procedures.
- We recommend that parents supervise their children's use of the leaderboard and any ad interactions.
- Ads displayed in the Game comply with Google Play Families Policy requirements for child-directed apps.

If you are a parent or guardian and believe your child has provided us with personal information without your consent, please contact us immediately at the address listed below and we will take steps to delete such information.

4. How We Use Information

The limited information we access is used for the following purposes:

- Leaderboard display name and score: To show your ranking among other players.
- Player ID: To associate your score with your Google Play Games account.
- Ad network data: Managed entirely by the ad network to serve relevant, compliant advertisements.

We do not sell, rent, or trade any user information to third parties for marketing purposes.

5. Third-Party Services

BounceLOL integrates with the following third-party services. Each has their own privacy policy which governs their data practices:

- Google Play Games Services — Leaderboard functionality. See: <https://policies.google.com/privacy>
- Google AdMob — Advertising. See: <https://policies.google.com/privacy>

We encourage you to review the privacy policies of these third-party services, as we are not responsible for their data practices.

6. Data Retention

We retain leaderboard scores and display names for as long as you have an active leaderboard entry. If you choose to sign out of Google Play Games or delete your game data, your leaderboard entry will be removed. Ad network data retention is governed by the respective ad network's policy.

7. Your Rights

Depending on your location, you may have the following rights regarding your data:

- Access: Request information about the data associated with your account.
- Deletion: Request that your leaderboard data be removed.
- Opt-out of personalized ads: On Android, go to Settings > Google > Ads > Opt out of Ads Personalization.

- Parental access/deletion (for children under 13): Parents may contact us to request deletion of any data related to their child.

To exercise these rights, please contact us using the details in Section 10.

8. Data Security

We take reasonable measures to protect information accessed through the Game. Leaderboard data is secured by Google Play Games Services infrastructure. We do not store personal data on our own servers.

9. Changes to This Privacy Policy

We may update this Privacy Policy from time to time. We will notify you of significant changes through an in-app notice or via the app store listing. Your continued use of the Game after any changes constitutes your acceptance of the updated policy.

10. Contact Us

If you have any questions, concerns, or requests regarding this Privacy Policy or your data — including parental requests on behalf of a child — please contact us:
